G.W.V.A. Smoker and Concert Well Attended

A very enjoyable evening was held on March 1st, at the Coleman Branch, G. W. V. A. club rooms, when 50 or 60 members gathered together and held a smoker and concert. The Town Band was in attendance, and the selections rendered by them proved to be very entertaining, as also did the songs and recitals by the members of the club.

The speech by Mr Johnston dealt mostly with items concerning the G.W.V.A. and every member present was very much impressed with the manner in which he spoke.

Much credit is due to the Town Band for the splendid programme that they rendered, also the Stewards who were always on the job serving refreshments. The programme was as follows:—

Selection, "Aida," by the Band; Song, "That Old Fashioned Wink"; W. Hoppe, Cornet Solo, "The Rosary"; Handmaster; Song, "I Went to Sleep Again"; H. Parkinson; Chorus, "Pack Up Your Troubles in Your Old Kit Bag"; The piano accompaniment; Song, "Dolals Qui Qui"; F. Jackson, March, "Here They Come"; Band; Song, "Mountains of O'Mourne"; P. Smith; Drum Solo, Lewis and Parkinson; Selection, "Melodies of the Past," Band; Song, "Encore"; T. Merriman, March, "Safety"; Band; Song, "He's Been a Long Time Gone For The Wood"; W. Holly; Chorus, "There's a Long Long Trail, and In the Evening by the Moonlight"; Band accompaniment; Song, "That Old Fashioned Mother of Mine"; W. Lewis; Duet, "Plaything"; Mathers and Jackson; March, "Mister Joe"; Band; Song, "Ragtime Cowboy Joe"; A. Penny; Song, "Mother Machree"; N. Davies; Song, "Asleep in the Deep"; J. Bell; Song, "Shaking Them Up and Down"; W. Warren; March, "Normal"; Band; Song, "Sweet Genevieve"; C. Makin; Song, "Playmates"; W. Jackson; Song, "A Baby Was Born"; Ike Thomas; Euphonium and Cornet Due, "Life's Dream Is O'er"; encores, "Scots," "Pearson Bros."

The entire programme was of unusual merit, all the numbers being encored enthusiastically.

Fire Damages Coleman Residence

Shortly after 1:30 Wednesday afternoon fire broke out in the residence of Mr. O. E. S. Whiteside and before it was brought under control badly damaged the residence and furnishings.

The fire originated in the roof near the chimney and it took three streams of water and the best part of an hour of fire fighting on the part of the local brigade before the blaze was finally brought under submissio

While the fire was confined mainly to the roof and upper portion of the building, considerable damage was done by water to the entire interior as well as the furnishings.

At this writing it is not possible to ascertain the exact loss, but it is undoubtedly extremely heavy as

besides a new roof the entire interior will require renovating, and serious damage has resulted to the costly furnishings.

Mr and Mrs. Whiteside are for the present staying in a suite in the McGilvray Creek Coal Company's boarding house, which was generously placed at their disposal until such time as repairs to their home are completed.

To Organize Boy Scout Troop Here on Monday Night

A movement is on foot locally to organize a Boy Scout troop in Coleman, and arrangements have progressed to the point where it has been decided to call a meeting of associate members and others interested in this worthy movement for Monday evening of next week in the Council Chambers.

Rev. Father McCormick, Messrs. C. Shaw and G. Key-Jones are the gentleman responsible for taking the initial steps towards getting action on the formation of a local troop. They have already signed up a number of adult citizens who will form the associate membership. Those behind the movement report that there is ample material in sight amongst the juveniles to make several splendid sections of a Scout Troop.

According to information given The Journal, it is the intention of those behind the movement to form three or more sections, one each in connection with the Anglican and Catholic churches and one independent branch under the direction of Mr. C. R. Shaw. Additional sections can be enrolled as the membership warrants.

All boys between the age of 12 and 16 are eligible for membership, and we know of no finer organization for "red blooded" boy to join than the Boy Scouts. The practical aspect of scouting will be seen in its law. Of the ten sections, the one most evidently practical is the "Good Turn to Someone Every Day." The other laws in this Code of Honour require the Scouts to be Trustworthy, Loyal, Friendly, Courteous, Kind to Animals, Obedient, Cheerful, Thrifty, and last, but by no means least importance, Clean in Thought, Word and Deed.

Scouting is strictly non-sectarian and non-military in principle and character, and it gives every normal boy—the future citizens of a community—healthy outlet for his super abundance of animal energy. There lies the appeal to the community at large to rally to its support. Attend the meeting next Monday evening and help in the good work of organizing a Boy Scout Troop in Coleman.

Hold Anniversary Social and Dance

Coleman Lodge of I. O. O. F. and Rebekah Sisters celebrated their anniversary on Tuesday night by holding a social and dance under the joint auspices of the two lodges. The hall was tastefully decorated and the committee in charge had spared no pains on arranging everything for the comfort and enjoyment of the guests, which were restricted to Oddfellows, Rebekahs and their relatives.

There was a large attendance, several of those present being Charter members. A lively orchestra made dancing enjoyable until a late or rather early hour and the proceedings were enlivened by the following programme:

Recitation, "Will you help me with my 'rithmetic daddy"; Mrs. W. Bowes.

Violin Solo, Mr. Sidney White.

Pianoforte Duet, Sisters Olson.

Recitation, "Gunga Din"; Mr. Harry W. Clark.

Pianoforte Solo, selections from "Il Trovatore"; Miss C. Hope.

Mrs. R. Easton has opened up a little Candy store next to The Journal office.

Louis Dutil of Blairmore Found Dead in His Store

The residents of Coleman in common with those of other towns in The Pass, were shocked to hear the news early Monday morning that Mr. Louis Dutil had been found dead in his hardware store at Blairmore.

The deceased, who was in his 45th year had been a resident of The Pass for upwards of 20 years, and conducted a hardware store in Blairmore and also one in Coleman. He was well thought of by a large circle of friends and acquaintances and had occupied the position of chairman of the Blairmore School Board for a number of years.

A widow and three children are left to mourn his tragic and untimely passing.

The funeral took place on Wednesday morning from the family residence at Blairmore and was largely attended. Interment took place in the R. C. cemetery.

Canmore Wins Provincial Hockey Title by One Goal

Hockey fans from Coleman who took in the Blairmore game last Friday evening, voted it the fastest and best game witnessed in the Crow's Nest this season. The "Can Diggers" themselves made the Canmore boys diggertise to the limit to retain a one goal margin on the round and almost accomplished what was thought to have been in

possible when they scored seven goals to Canmore's two. The wins give the British Columbia champions in the Allan Cup play-down and Alberta has no reason to feel ashamed of their respective lives as the Canmore boys are a good aggregation of young hockey players.

Local Masons Honor Retiring Treasurer

At the regular meeting of Summit Lodge, A. F. & A. M., on Thursday evening of last week, R. W. Bro. Alexander Cameron was presented by the members with an illuminated address and a life-membership. Mr. Cameron had been the treasurer of the lodge for twenty years. He declined the request of his brethren to continue in office, feeling that his fruit interest at Wyndell, B. C., demand most of his time and attention.

It was with regret that his resignation was accepted and the unanimous opinion of his brethren that in some fitting way, they should express their appreciation of his long and faithful services.

R. W. Bro. Chas. Ouimet made the presentation and in felicitous words expressed the feelings of the brethren towards Mr. Cameron.

R. W. Bro. Cameron was completely taken by surprise and found it most difficult to respond to the gracious sentiments of Bro. C. Ouimet, but in a few well chosen words spoke of the delight such gifts gave him and while he might have a great deal from Coleman, he assured the brethren it was his home.

Mr. Cameron is a charter member of Summit Lodge and has always taken an active interest in its welfare. He is now the possessor of two life-memberships—he was made a life member of his home lodge in Ontario a number of years ago.

Mr. A. M. Morrison was a business visitor to Calgary last week, returning home Sunday morning.

Davidson Rink Wins Merchant's Cup 10-9

What will likely prove to be the last curling game of the season was played Saturday night, when the D. Davidson rink clashed in the finals of the Merchant's Cup with the H. Boulton rink, and a real cup fight right up until the last rock in the last end.

Boulton secured an early lead, and came home one up, but the Davidson clan got two in the house well guarded and their opponents could not move them on. The final score being Davidson 10, Boulton 9.

The personnel of the rinks were: G. Rogers, A. F. Short, T. Holstead, D. Davidson (skip), A. Knowles, W. Cousins, J. D'Appolonia, H. Boulton (skip).

Coal Shipping Arrangement Cancelled; \$9 Rate is Cause

EDMONTON, March 9.—The arrangement between the Dominion of Canada, Alberta and Ontario to share out the pocket cost of shipping 200,000 tons of Alberta coal to Ontario above the \$7 freight rate was dynamited in the legislature Monday afternoon.

Hon. George Headley, acting premier, in the absence of Premier E. Brownlee, announced that Mr. Brownlee had telegraphed Hon. Chas. Stewart, federal minister of the interior, that the Alberta government would not agree to share the extra cost of \$1.00 per ton, and the extra cost was fixed at \$9 at ton.

Band Concert Well Received

The first Sunday evening band concert held for many months by the Town Band drew a good audience at the Grand Theatre on Sunday last. The large audience thoroughly enjoyed the musical and vocal selections rendered. It is to be hoped that those responsible for putting on these concerts will repeat them more frequently.

Rod and Gun Club Meets Tonight

The annual meeting of the Coleman Rod and Gun Club takes place in the Council Chambers this evening at 8 p.m. A good attendance of members and all others interested in the work of this organization is looked for, as there are many important matters to come up for solution.

MEDITATION (Contributed)

It's only a bonnie wee bit fl'w',
I admire it by the hour;
As on my window sill its slitting
And I sit by it with my knitting.

It mends me o' some other days,
When I was young and roamed the
brae
In bonnie Scotland far aw'

Was there I saw the bluebells blow.
Tho' Canada has been my home
For thirty years an' mair,
My thoughts they aye gang wandering

back
Tae the land I love sae dear

When I look at the Rocky Mountains

A' covered wi' the snaw,

It's then I think o' the feather hills.

Whar the bonnie blue bells blow

—

Mr. O. E. S. Whiteside returned from a business trip to the Coast this week.

Minutes of Organization Meeting Coleman Board of Trade

The meeting called for the purpose of organizing a Board of Trade in Coleman Tuesday evening opened at 8:10 p.m. in the Coleman Council Chambers with Mayor W. J. Burns in the chair.

The chairman explained the reason for the meeting, and briefly outlined reasons why such a board was necessary for the Town of Coleman. He then called for general discussion on the subject, and after several representative citizens had spoken it was moved by Mr. H. Snowden, seconded by Mr. W. L. Rippin, that a Board of Trade be organized in the Town of Coleman carried.

The election of officers was then taken up, and the following gentlemen were elected to the position of Honorary Presidents: A. C. Flumefelt and J. A. Nowell.

President—Mr. A. M. Morrison.

Vice-President—Mr. Wm. Bell.

Secretary-Treasurer—Mr. W. S. Purvis.

The question of Executive Committee was then considered and several good suggestions were put forth as to the form such a committee should take. It was finally decided that the best scheme would be to definitely decide under just how many headings the Board's many activities would come, and then appoint various committees of sufficient size to handle the work, and it was moved by Mr. C. S. Ouimet, seconded by Mr. F. Graham that a committee of three be appointed to go into this matter and report at the next meeting, and upon nomination the following were elected to act as this committee: Mayor W. J. Burns, Mr. Harry Burns and Mr. Harry Boulton.

Upon motion it was moved that the President and Secretary-Treasurer be empowered to sign all cheques on behalf of the Coleman Board of Trade.

It was also moved and carried that the membership fee be \$1.00 per year payable in advance.

Moved and seconded that a Membership Committee be formed to sign up new members and that the following be such a committee: Messrs. F. G. Graham (Chairman), J. Houghton, W. Bell, J. D'Appolonia and S. Losky, Carried.

There being no further business it was moved and seconded that the meeting adjourn until Tuesday night, March 16th, at 8 p.m. Carried.

Proposal to Create New Seat at Drumheller Pleases P. M. Christophers

EDMONTON, March 9.—P. M. Christophers, Labor, Rocky Mountain, to date appears to be the only member of the house pleased with the latest map of the redistribution committee which leaves the seats in the legislature at sixty but cuts out the old constituencies and creates three new ones at various points.

Mr. Christophers' constituency of Rocky Mountain has been lopped off in the north but compensated in the south with part of Pincher Creek and takes in all the Crow's Nest mining area. Also, by the creation of a new constituency around Drumheller by cutting off parts of Didsbury and Hand Hills to form it, a new coal mining district has been created there.

The Rocky Mountain member looks forward to another labor man from the miner ranks joining him in the next house.

Local Artists Perform in Professional Style

The Coleman Dramatic Club, playing under the auspices of the local Lodge B. P. O. Elks, made their initial appearance at the Grand Theatre on Wednesday night in "Mrs. Temple's Telegram". This is the first time that play has been produced in Coleman and it was enthusiastically received. This the best amateur performance seen in Coleman, in fact, in the opinion of many critics, it has not been equalled in the Crow's Nest Pass. It is impossible to select any outstanding member of the cast as the whole company performed in an exceedingly able manner and was particularly well balanced.

The difficult role of Mrs. Temple was ably sustained by Miss Edith Hayson, who gave a very finished delineation of that good lady's trials and tribulations and well merited the encomiums accorded to her during and at the conclusion of the performance.

Miss Houston, as Dorothy, Mrs. Temple's sister, utilized the comparatively light part to the full in the display of her histrionic talent, and it is hoped that she will be seen on the stage again at an early date.

The part of Mrs. Frank Fuller was taken by Miss Elsie Hayson and she more than did justice to this difficult role.

The comedy touches were provided for by Miss C. Allan as Mrs. John Brown, Christian name Matilda. Each appearance of Miss Allan evoked storms of merriment and should she desire to make the stage her profession there can be no doubt that she would be very successful for seldom has such an able performance been witnessed on the local boards.

While on the subject of comedy it would be in order now to comment on the part played by Mr. D. E. McLean. As a comedian of the first rank Mr. McLean has established himself firmly. In his interpretation of the part of John Brown, the bewildered hairdresser, he scored a triumphant success and illustrated very vividly the art of which he is such a master. He was highly appreciated along these lines by Mr. A. E. Graham as Wigton. Mr. Graham needs no introduction to Coleman devotees of the drama and by his performance last night added another triumph to his already enviable list.

The delinquent Mr. Temple was delightfully portrayed by Mr. Dennis, who coming from the Blairmore Kicks Dramatic Society has proved a tower of strength. Were it not for his own assurances that such was not the case, one would have thought that the trials of Temple were but a page from his own career so faithfully did he endow the part with his personality.

Mr. Barnes as Frank Fuller, the well meaning friend of Mr. Temple, proved himself to be quite at home on the stage and as a fixer managed to lay the foundation for many difficulties with great success.

Mr. W. T. Watts played the part of Captain Sharpe, D.S.O., M.C., with commendable skill and dramatic ability and is a very welcome addition to the ranks of the Dramatic Club.

Altogether the play was an unqualified success and much of this was due to the work behind the scenes which was in the able hands of Mr. J. Downie. Many complimentary remarks were heard concerning the scenery which was the work of Mr. C. M. Graham & Co.

The proceeds of the performance have not been ascertained as yet.

RED ROSE "is good COFFEE"

Suppression Of Crime

In freedom from serious crime Canada enjoys a good name and a reputation which is in striking contrast to that of its great neighbor, the United States. It is a name and reputation which Canadians should jealously guard and carefully maintain from policies and actions which would in the slightest degree lower the standard so long maintained in this Dominion. A word of warning is in order because signs are not lacking of a tendency to grow somewhat lax in the enforcement of law enforcement.

In the United States crime has become a national menace, and in many respects the law has broken down. So serious has the situation become that responsible officials and nation-wide organizations of the law and the profession are alarmed, and are looking about for some effective means of checking the reign of lawlessness and violent criminal acts now recognized as a national disgrace, as well as danger, and which places the United States in an unavoidable class by itself among the nations of the world. The rising tide of crime is now admitted to be one of the United States' greatest problems.

A study of some of the causes of the condition now existing in the United States may be of value to Canadians in safeguarding themselves and their country from the development of a similar state of affairs here. But first let us consider a few figures.

In 1920, 9,200 persons were killed in crimes of violence in the United States, in 1922, 10,000, and in 1924 it had risen to 11,000. Compare these figures with England and Wales. In 1923 there were 55 murders committed in all England and Wales, and 63 homicides other than murder, a total of 153 as compared with 263 that same year in the United States, or 10,000 in the United States. The population of England and Wales at that time was 38,000,000, and of Chicago slightly less than 3,000,000. London and New York have approximately the same population, but London had just 42 murders in 1923 as compared with New York's 262. In 1923 more than twelve times as many people were robbed in one United States city, alone, Chicago, as in all the Dominion of Canada.

The difference between the British and Canadian judicial systems, with judges appointed for life, and the United States system of judges chosen by popular election, is one cause of weakness across the line. But the chief factor in the increase of crime in the United States is undoubtedly the lack of law enforcement. Many law enforcement officers, either citizens or a native to their business to defend the criminal class. They can command big fees, and they take full advantage of every twist and turn in the law to get these law breakers off. Partisan elected judges, and politically chosen district attorneys, and a politically administered police force, cannot successfully cope with these lawyers, backed with unlimited resources from the criminal underworld.

Lack of law enforcement, and the abuse of the parole system, has resulted in the criminal class holding the law and law officers in contempt. Punishment has few terrors for them, because in the majority of instances they are confident they can beat the law. And they do.

In Canada and Great Britain, criminals have a wholesome respect for the law. They know it will be enforced without fear or favor. But, unfortunately, there has developed in late years a certain sickly sentimentality among the public, which has led to a desire to be lenient with criminals. The suppression of crime has no sound basis, but many people think of the criminal and not of the community, and nowadays hardly a murderer is sentenced to pay the penalty of his crime that petitions are not circulated asking for leniency. In view of the high character of Canadian judges, the people may well leave the administration of criminal law to them, especially as they are in full possession of facts unknown to the public at large.

A contributing factor to the rising tide of crime in the U. S. is the case with which the criminal class, in fact, anybody, can obtain pistols and revolvers. With hardly an exception the cheaper magazines of the country carry scores of advertisements for the sale of pistols. They can be purchased cheaply and as easily as groceries. Yet a pistol has one use and one only—to be used by man against his fellow man, either in the hands of criminals, or by man in defense against a criminal. It is no longer used in war; it is not used in sport. Ninety per cent. of all murders in the U. S. are committed by the use of pistols, yet the appalling fact is that in the year 1921 alone nearly half a million pistols were manufactured in the United States.

Consequently, there are stringent laws against the carrying of concealed weapons, and there should be less leniency in law enforcement and in the infliction of adequate punishment upon all concealed law breakers. Criminals have no regard for the rights, property and lives of others; it is the height of folly to bestow unmerited sympathy upon them.

"Columbus of The Air"

The flight of Commander Rameau Franco and his companion has been one of the outstanding achievements of aviation. Helped as the "Columbus of the Air," Franco started on Jan. 22 his voyage from Palos, Spain, where Columbus set out on his first voyage to America in 1492, and finished their journey to Brazil, Africa. Feb. 14. Commander Franco and his companion are the first aviators to span the South Atlantic entirely by air.

Sales of women's hats in Chicago last year totalled \$55,000,000.

Big Salmon Pack

Fluky figures on the salmon pack of British Columbia for 1925 issued recently by the Salmon Cannery Association show that in only one year in the history of the province has the total pack been greater than last year. Altogether 1,719,232 cases of salmon of all varieties were turned out in 1925 in plants of the British Columbia coast. In 1923 the total was 1,756,313 cases.

Eleven cubic feet of water, when frozen, make 12 cubic feet of ice.

CHILDREN CRY FOR

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulence, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Fletcher*.
Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Would Ban This Royal Sport

Campaign Is Launched In England Against Fox Hunting

The broken collarbone of the Prince of Wales and the ban on the movement of horses which caused a prevalence of the hoof and mouth disease have been the main campaign in England against fur hunting.

Two of the strongest arguments against the sports are its expensiveness in proportion to the number of foxes killed and its cruelty to the fox.

BEAUTIFY IT WITH

"DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions for simple silk, woman can tint soft, delicate shades or dye rich, permanent colors in linens, silks, ribbons, hats, dresses, coats, stockings, sweaters, draperies, coverings, hangings, curtains, etc. It is linen, cotton or mixed.

Value of Field Crops

The aggregate value of all field crops in 1925 was \$1,159,361,900, as compared with \$995,235,900 in 1924. The value in 1925 is the largest since 1923, when the total was \$1,455,244,050 and the year 1925 is the first year since 1920 and the war period that the field crops of Canada have exceeded one billion dollars in value.

UTTERLY DISCOURAGED

This Was the Condition of a P. E. Woman Before Taking Dr. Williams' Pink Pills

"The impure began," says Mrs. M. J. Alcorn, P. E. teacher, 2, Alberta, P. E.I., who, in 1922, was a virgin. "I was left with the care of a farm, stock, with no help but that of a young boy. My health broke down, and I frequently fainted. I lost my appetite and was unable to eat. I had a strong desire for sweets, and was unable to sleep at night. A friend happened to me, the work loomed up ahead of me.

A friend happened to me, the day of my graduation. Dr. Williams' Pink Pills had done her and her husband good. I had not energy enough, or perhaps confidence enough, to try and help him. I felt that I had not done my duty, and I had been left alone. I had taken them then. I knew they were helping me and was anxious for more. I had started taking the pills for six months, and then I had a strong desire passed a critical period in my life, and regained my usual good health. I am now an overworked, nervous, racked woman, but I am better than many of them—I still say, and at all times, take Dr. Williams' Pink Pills. They will help you regain your energy."

"There are many troubles due to the heat, water, blood easily overcome by Dr. Williams' Pink Pills. The whole mission of this medicine is to purify and enrich the blood, and when that is done all the vital organs of the body will disappear and good health return. You can get Dr. Williams' Pink Pills from any druggist or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brooklyn, Out.

It is said that all the mean acts of a woman are quickly brought before a drowning man. The same might be said of a candidate for office.

British Columbia's fine new Fraser Canyon highway will be open for general use about July 1st.

Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Wimbleton to Saint John, N.B.

The train will leave Wimbleton on "The Imperial" at 10:00 a.m. every Tuesday until April 30th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating, as it does, changing trains at Montreal.

LAST WORDS OF JESUS WITH HIS DISCIPLES

MARCH 14

LAST WORDS OF JESUS WITH HIS DISCIPLES

Golden Text: I am the way, and the truth, and the life. John 14:6.

Lesson: John, Chapters 14 to 17.

Devotional Reading: Isaiah 40:1-8.

Explanations and Comments

Christ the Consoler, verse 1—Let not your heart be troubled; believe in God, believe also in Me.

beautiful words which the disciples heard in Christ's last talk with them.

Then came the words of rebuke:

their hearts were failing them when they approached the last crisis in their Master's life.

It was faith in the Son that kept them from failing, and faith in the Father and the Son would uphold the disciples in that terrible time.

What Jesus said to His troubled disciples He says likewise to us in our times of stress and trouble.

Here lies the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

It is the secret of our strength in the face of all trouble.

PROGRESSIVES TO CO-OPERATE WITH THE GOVERNMENT

Ottawa.—"Coalition or fusion" of the Liberal and Progressive parties "is not contemplated." This declaration is made in a signed statement issued by Robert Forke, Progressive leader, and H. E. Spencer, chief Progressive group in the House of Commons, and its relation to the King Government.

The intention of the Progressive party is "to co-operate openly" with the government on a "legislative" basis; it is stated, for which, "In order to be effective, consultation is essential."

The statement reads as follows:

"To prevent any misunderstanding and speculation by the press, it has been thought advisable to issue a statement regarding the position of the Progressive group and its relation to the government."

"After the general election held on October 25, it is found that the government contained a number of progressive, none of which had a majority over all. This is a situation unique in the history of Canada, and presented obvious difficulties requiring new method for their solution. If the best interests of the country are to be served and parliament allowed to function."

"That this can be best accomplished by co-operation between the various groups in parliament is by 'co-operation' that the position of the progressive is apparent and steps are taken to establish a basis for co-operation."

"It is accepted by the co-operating groups that the basis must be legislative, and that in order to be effective, consultation is essential. It is therefore the intention of the Progressive group to co-operate openly with the government on this basis."

"Coalition or fusion of the groups participating is not contemplated."

—Robert Forke.

—Henry E. Spencer."

Noxious Weed Problems

Subject Dealt With By Hon. C. M. Hamilton at Meeting of Saskatchewan Rural Municipalities Association

Regina.—The problem of noxious weeds, which has been one of the greatest troubles that rural municipal councils have to face today by Hon. C. M. Hamilton, minister of agriculture and former minister of municipal affairs, welcoming the delegates at the annual convention of the Saskatchewan Association of Rural Municipalities.

While much money had been spent on the efforts to eradicate bad weeds, Mr. Hamilton said that the expenditure was wholly wasted. He referred to the saw thistle as the worst enemy and declared that unless it were fought continuously it would become a serious menace.

For Corporal Punishment

Advocates Spanking Machine to Put Fear into Minds of Evil Doers

Winnipeg.—R. B. Graham, K.C., controversially concluded his advocacy of corporal punishment as a deterrent to crime, in an address before the Rotary Club here.

Physical pain, uniformly inflicted and without the desire for revenge, he held to be the only real deterrent to crime. He termed jail sentences a failure and flogging revolting. He advocated the infliction of pain without sentiment and with absolute uniformity by a means of a device similar to a "spanking machine."

He repeated a previous assertion that jails have ceased to operate as places of punishment and have developed into "warm winter quarters for the lazy and schools of crime."

Entertained Distinguished Guest

Victoria—Victoria entertained one of the most distinguished guests to visit the city in many years when Viscount Allenby, famous British military commander, who won Palestine from the Turks during the world war, arrived from Australia aboard the *Aorangi*, accompanied by Viscountess Allenby. Lord Allenby will tour Canada under the auspices of the National Council of Education.

Plan For Forest Fire Protection

Sydney, Australia.—With a view to preventing a possible recurrence of fatal and destructive bush fires, the New South Wales forestry commission has arranged a conference of forestry representatives to consider measures for protection of the Australian forests against fires.

Latest reports show that there are 27,469 women in the federal civil service in Washington.

W. N. U. 1619

Last Week In The Alberta Legislature

Minister of Agriculture Deals With the Farming Situation of the Province

Edmonton.—A debate on the address in the Alberta Legislature concluded after a two weeks' discussion. No amendment was offered by the opposition.

The concluding speaker was Hon. Geo. Headley, minister of agriculture, who dealt with the agricultural and health situation throughout the province. The total value of all agricultural produce in 1925 was \$25,000,000. The wheat yield averaged 18 bushels a acre, giving a total of 103,000,000 bushels, the second largest in the province's history.

All field crops totalled in value \$148,000,000, and forage crops \$46,000,000.

Dairying did not make the same progress as in former years, but increased prices kept the value up, the total realized being \$23,000,000. Poultry production totalled \$3,000,000, eggs produced being \$5,000,000.

Breeding cattle, becoming quite an industry in Southern Alberta, had 115,000 lbs. being produced last year.

Fodder corn had made remarkable development. Alberta had last year supplied 15,000 horses and 200,000 cattle to the world's markets.

The report of the health department showed that much progress had been made in combating disease, particularly by the use of anti-toxins, and through clinics and public health units. Mental hospitals were now serving approximately 110,000 of the province's population.

227 mothers received allowances under the Mothers' Allowance Act last year, the total expended being \$31,007.95. Annuities would be introduced this year, the effect of which would be to help mothers where the husband was totally incapacitated, and where there were young children.

The government have already introduced thirty-two bills, a number of which have already received second reading.

Most of them are not important, but several deal with matters which will affect the province materially in the future.

A bill for the transfer to the province of its public lands has been introduced in the house. This includes the agreement entered into with the federal government under which the prairie farmer millions of dollars. He quoted prices paid at Minneapolis for wheat judged on this basis to show how such a system would be profitable.

James Robinson, of the grain board, stated that the reason why Minnesota paid high prices for wheat with high protein content was because the general rule of protein content in United States grain was low. The Canadian system of grading wheat recognized as the best in the world and the advice from British buyers was to wait with it.

"Naturally," interrupted Mayor Patchard, "the British buyer gets paid for the amount of the protein content."

The protein system is not applicable to the export business," continued Mr. Robinson. "There are in the neighborhood of 175 grades at the Winona elevators today that vary in protein content. If we had to separate and show the protein content that would add to the number of grades."

Minneapolis, the British buyer gets paid for the amount of the protein content."

The protein system is not applicable to the export business," continued Mr. Robinson. "There are in the neighborhood of 175 grades at the Winona elevators today that vary in protein content. If we had to separate and show the protein content that would add to the number of grades."

To grade on the protein system you would have to have the same condition here as exists at Minneapolis."

Claims Prohibition Law Was Violated

Publishing Washington's Beer Recipe

A Crafty Minds of Evil Doers

Winnipeg.—The editor of the *Washington Post* for publication of George Washington's beer recipe was demanded of President Coolidge by Representative Blanton, Democrat, Texas. Publication of the recipe, the Texas representative argued, on the floor of the house, constituted a violation of the prohibition law.

Prohibition officials were frankly puzzled over the printing of the recipe, but it was announced at the department of justice that no official cognizance of it had been taken.

Fast Mail Service For Victoria

Victoria.—Starting on April 6, Victoria residents will be able to send letters or parcels to New York in approximately 50 hours, it was announced at the Victoria post office.

Arrangements have been made whereby it is possible for British Columbia residents to take advantage of the fast United States trans-continental air mail service.

Thieves Take Priceless Articles

New York.—Thieves who entered the Barton, Price and Willson, Inc. art shop in the Fifth Avenue district, broke several jars made in the fifth century, said to have been "priceless," and escaped with three tapestries valued at approximately \$4,000.

Fiu Epidemic in Russia

Moscow.—The epidemic of influenza is sweeping Russia, there being 27,000 registered cases to Moscow alone. All unemployed physicians and nurses have been summoned to the hospitals to relieve the overworked staffs.

Germany Extends Credit To Russia

Berlin.—Representatives of German industry, with the support of the Federal Council, have concluded an agreement by which a loan of up to \$75,000 will be extended to Russia for the purchase of German goods.

Appeals To Privy Council

King of Swaziland Protests Against Leasing Mountain Strongholds London.—The King of Swaziland, Sobhuza II, was represented by counsel as an applicant before the privy council recently.

A striking figure in court was the King's attorney-general, whose negro features contrasted strongly with his very new forensic wig. He is young, is a graduate of Oxford University, and LL.D., of London University, a son of the English Bar. Although he too was a member of the legal profession, he left the argument to the Canadian Institute of Mining and Metallurgy here.

Reviewing developments of the year, Mr. Cook pointed out that the production of minerals reached a value of \$21,846,237, an advance of \$15,262,321 over the total for 1924 and well toward the record valuation of \$27,559,665 attained in 1920.

Briefly, the case is that large tracts of mountain strongholds, including the burial place for ages of departed kings of Swaziland, have been illegally taken over, it is alleged, by the Swaziland corporation, a private corporation seeking to develop trade in cattle and Swaziland resources generally.

The correspondence of The Daily Express in London says he learns that Germany has been assured she alone will be admitted to the league council and that other claims must be left for later consideration—perhaps at the September meeting.

Secrets of Mutiny in Navy Revealed in Reaching Speech

Berlin.—Starlings revelations with regard to the naval mutiny strike and the minimum pay demand by the German navy in 1917 have been made by Herr Dittman, the Socialist deputy, in a long speech delivered before the special committee appointed by the Reichstag to inquire into the causes of Germany's collapse in the war.

Herr Dittman states that the chief

ground of the men's discontent during the so-called "manned-wire" mutiny of 1917-18 and in the following summer was the belief of the sailors that the minimum pay demand by the German navy in 1917 have been made by Herr Dittman, the Socialist deputy, in a long speech delivered before the special committee appointed by the Reichstag to inquire into the causes of Germany's collapse in the war.

An incident that occurred on board the battleship *Thuringen* shows the

state into which the fleet had de-

teriorated. The officers, while at

mess one day, were suddenly drenched

with water from a hose which was

aimed on them by an unknown hand,

and this despite the circumstances

of the ship's unsupervised condition.

The picture of military Germany

which has been revealed by Herr

Dittman has come as a shock to

many Germans who had been kept in

ignorance of the seamy side of Ger-

many's methods during the war.

To Detain Aliens

Says Chicago Gangland Will Be Swept Clean in Week

Chicago.—Immigration officers and authorities renewed their drive on alien gamblers here.

John Schaeffer, head of a special committee to detect and as-

signed to the round up of deportees, predicted that within another week gangland would be deserted.

Russia Liberates Prisoners

Moscow.—The central executive committee has issued a decree liberating all prisoners in the Far Eastern provinces formerly making up the Far Eastern Republic who are serving terms of a year or less. Sentences of less than a year are commuted to 10 days. The action was taken to make available all possible labor so as to strengthen the Russian Far East economically.

WOULD SECURE BASIS OF UNION FOR FARM BODIES

Saskatoon.—A long step forward in the amalgamation negotiations be-

tween the Saskatchewan Grain Grow-

ers' Association and the Farmers'

Union of Canada was taken at a com-

mittee meeting here.

It was decided that Manitoba and

Alberta members of the F. U. C. shall be members of the United Farmers of Western Canada, Saskatchewan section, until such time as provincial sections are formed in these provin-

ces, when such sections shall have

complete autonomy. Another resolu-

tion, passed unanimously, expressed

the earnest desire of the amalgam-

ation committee to work out a basis

of union which shall command itself

to the good judgment of the great majority of members of the two org-

anizations.

Attending the conference were C.

H. Burnell, president of the Mani-

toon wheat pool, who acted as chairman;

J. H. Stoneman, president of the Farm-

ers' Union; W. M. Thrasher, secretary

of the Farmers' Union; L. C. Brou-

lette; C. H. Harris, A. Bayton, George

F. Edwards, president of the S.G.C.A.

C. Stoliker, Mrs. A. W. Selby, Mrs.

A. L. Hollis, Mrs. McNaughton and G.

J. Harvey Hearn, solicitor for the

Farmers' Union.

Dominions May Be Represented

London.—The question of the possi-

bility of the dominions being repre-

sented in the House of Lords when

the latter is reformed was raised in

the House of Lords by Baron Strath-

rey, who suggested that the Imperial

conference in October should provide

an opportunity to ascertain the op-

inions of the premiers of the dominions

on this point.

Will Not Reduce Navy

London.—W. C. Bridgeman, first

lord of the admiralty, stated in the

commons that the personnel of the

Royal Navy will not be reduced this

year, but will be maintained at the

same numerical status as in 1925.

GREAT PROGRESS IS SHOWN IN THE MINING INDUSTRY

One New Membership For League Council

Report Says Germany Alone Will Be Honored For the Present

London.—The latest developments surrounding the meeting of the League of Nations seem to indicate that Germany alone will be elected to a permanent seat on the league council, and that the question of the claims of Poland, Spain and Brazil for similar seats will be left to the meeting of the assembly in September.

Sir Austen Chamberlain, the British foreign secretary, is said to have received from his reported stand in favor of other new permanent memberships than Germany.

He would favor, however, giving Spain a seat at the coming session, but this seems out of the question, as he believes that Germany would agree to such a number.

The correspondence of The Daily Express in London says he learns that Germany has been assured she alone will be admitted to the league council and that other claims must be left for later consideration—perhaps at the September meeting.

Germany Hears About War-Time Conditions

Secrets of Mutiny in Navy Revealed in Reaching Speech

Berlin.—Starlings revelations with regard to the naval mutiny strike and the minimum pay demand by the German navy in 1917 have been made by Herr Dittman, the Socialist deputy, in a long speech delivered before the special committee appointed by the Reichstag to inquire into the causes of Germany's collapse in the war.

BRITAIN WILL STAND SOLIDLY FOR PEACE PACT

London.—Speaking warmly and adroitly on the occasion, Sir Austen Chamberlain, the foreign secretary, told the house that Britain would not oppose a unanimous movement of the other members of the league council to award a permanent seat to some nation besides Germany.

In his promised outline of British policy regarding enlargement of the council, Sir Austen declared, however, that British representatives at the coming Geneva meetings would be guided by the principle of doing nothing to jeopardize the results of Locarno.

They must be parties, he declared, to nothing which would make it impossible for Germany at the last moment to enter the league when she presented herself at its doors.

Sir Austen said he had watched the progress of the international controversy with grave anxiety and that if the mutual guarantees of the conventions, one might take a gloomy view of the situation. He was encouraged to hope, however, for better things from moderation of statements of representatives of the nations most closely concerned, whether German, French, Belgian or Polish.

Urge Reduction Of Canada's Gold Reserve

Could Be Profitably Cut By \$50,000,000

Says Royal Bank Economist

Toronto.—Reasons why Canada should lose no time in returning to a gold standard and why the Dominion should authorize a reduction of the country's gold reserves were presented by Mr. Marvin, economist of the Royal Bank of Canada, in a address

delivered before the commercial de-

partment of the University of Toronto.

By keeping up Canada's gold re-

serves above the present level, Mr. Marvin estimated about \$2,000,000 annually is being lost in interest.

The present total holdings of \$238,000,000, he said, must be reduced by \$50,000,000, and the amount of the reduction depends

on the amount of the reduction.

THE EMBARGO
BUG.

Some daily newspapers, especially corporations sheets, have developed the embargo bug to such an extent that some ridiculous statements are made. The latest innovation is an embargo on Canadian wheat and Canadian lumber. Just think for a minute what would happen to Canada with an embargo on wheat. Canadians use annually about 90,000,000 bushels of wheat. This year's crop was approximately 375,000,000 bushels. What are we going to do with the difference between what we usually use and what is produced? One of the seven deadly sins is that of gluttony. Are we to gorge ourselves in an attempt to consume this over-production on Canadian wheat, while people of other lands need it? British Columbia is an exporting province and must find her markets in other countries.

An embargo on wheat! What nonsense. The next thing some dreamer will be advocating will be an embargo on lead and Canada will have to consume the entire output of the Consolidated mine at Kimberley. A trainload a day. Reciprocal trade requirements are what this old world needs if we are to keep the world on an even keel. Greedy corporations, backed by controlled daily newspapers are doing more to sow the seeds of discord than anything else in Canada today. It's time we thought Canada, talked Canada and acted Canada. - Cranbrook Courier.

HEADLINES AND
HUMANITY.

No country is any better than the headlines of its newspapers. This saying is as extreme as it is true; but what we mean to say is, many people do not go deeper into the questions of the day than the information contained in headlines and the thoughts they convey. We are a nation of headline readers. As one has said of songs, "I would also say of headlines: "I would rather write a nation's headlines than their ruler."

In the newspaper profession the headline is supposed to practically "tell the story" for the busy man, which includes everybody. And we have just run across the champion headline-writer of the world. Over a story of a man named Doolittle, who was charged with failure to provide for his 9-year-old son, there appears this headline: DOOLITTLE DOES LITTLE FOR LITTLE DOOLITTLE. And so, why read any further?

Mail order houses made millions of dollars last year—most of it coming out of the smaller communities. Small town merchants should consistently advertise, just as the mail order houses do.

The word pestilence any town can have is general coverage from fellows afflicted with knockitis.

The millennium will come when everybody is always as happy as an Indian on the 17th of March, to whom!

You can be successful in boosting your town, but don't try to show it.

Business is usually about as good as the fellows behind it.

Community development is always worth its weight in taxes.

A town isn't worth a tinker's shoo in it who has worked for it long and hard enough to become unpopular.

Taxation is merely letting the government buy collectively the things that would cost more if bought individually.

Advertising is like thumping on a watermelon: it will tell you when your business is ripe for success.

Before we can sell ourselves to others we must sell ourselves to ourselves.

According to the Constitution of Mexico, you've got to be a Mexican in order to preach in that country. This is so the doctrine of revolution will not become contaminated with the tenets of peace.

They say they've got smart men in the U. S., and yet the miners and operators signed the same agreement in February that they knew they would have to sign last September.

Regardless of other considerations, we can't imagine the ordinary preacher having so poor a financial sense as to be guilty of the charge of being "in it for the money."

Now that Germany has filed her application for membership in the League, we suppose the matter will be referred to the committee on helmets and poison gas.

Travel to the Orient increases. Probably because tourists prefer being held down by bandits in China than held up by hijackers in America.

Statistics say that 23 out of every 100 women and girls are engaged in useful occupations. Evidently a lot of us married ones of the 77.

If it was jazz the cat was playing on his fiddle no wonder the cow jounced over the moon.

Strikes never break anything but the participants.

To err is human; but to err again is supine.

Fur Farming Industry In All Its Branches Is Now Firmly Established In Canada

Whatever doubts may have been entertained during the first experimental years regarding the future of fur-farming in Canada have long been dispelled. The industry is now firmly established, has indeed branched out in various directions since the breeding of foxes was undertaken. According to the information available, in 1924, the number of farms in operation in Canada totalled 1,556, of which 1,466 were devoted to rearing foxes and 81 to other fur-bearing animals. Compared with 1922 the number of fur farms had increased by 232; fox farms by 257, and other farms by 34, the bureau reported. In his latest report the federal minister of agriculture records a further decided increase in the farms raising fur-bearing animals other than foxes. Nine ranches are raising bobcats, thirteen have taken up furbearers: mink, marten; thirty-two, mink; two, lynx; fox, blue fox, twelve, skunks; forty-four, raccoons; four, coyotes; sixty, mink-rats and, at least, twenty, rabbits. He adds that the department is constantly receiving inquiries for information regarding the raising of various kinds of fur-bearing animals, with particular reference to mink-rats, mink and chinchilla rabbits.

The value of these farms, including land, buildings, fixtures and animals amounted to \$1,429,000 in 1924, including mink and fur-farmers, who operators could not furnish exact statistics relating to these animals. Since

in that year Canada had only 29 mink-rat farms, two beaver and three raising mink-rat and foxes, the expansion in other than for farms during 1925 has been remarkable when the figures for 1924 and 1925 are compared.

As regards the distribution of the farms in 1924, the figures show Prince Edward Island, 57 per cent; Ontario, 16; Quebec, 12; Manitoba, 10; Saskatchewan, 8; Alberta, 6; Nova Scotia, 6; British Columbia, 2; Saskatchewan, 2, and Yukon Territory, 1. At the close of that year four farms in Canada reported a total of 21,294 silver foxes, of which 21,364 were adults, valued at \$8,662,183, the total number of foxes, 2,796. The enterprise is now well under way.

Prince Edward Island, 13,638; New Brunswick, 4,156; Ontario, 3,551; Quebec, 2,786; Nova Scotia, 2,287; Alberta, 1,785; British Columbia, 1,274; Saskatchewan, 568; Yukon Territory, 362, and Saskatchewan, 312.

It is significant for the future of the industry that notwithstanding the increase in the number of farms and animals, the recent sales in Montreal showed the prices of silver fox pelts of best quality to have advanced 25 per cent. The total sales of the Canadian Fur Auction Sale Company for August reached \$1,200,000.

Based on the chairman's report, it shows Canada to be particularly strong in mink, almost rivaling Russia and even Siberia. Exports annually large muskrat ranches exist in Sydney, Cape Breton, and in Haileybury, Saskatchewan. On the latter there are no fewer than two thousand breeding pairs. It is claimed for this country that the muskrat skins produced here are the best in the world. They return between three and a half and four million dollars per annum. Muskrats multiply and thrive well in captivity, and there is a definite opportunity for further development. Mink also thrive in captivity. The skins are in good demand and command fair prices. Young mink and ready made for breeding purposes chinchilla rabbits, although originated in France as late as twelve years ago, have already become extremely popular. They have been known in Canada for only two or three years, but the demand already exceeds the supply. However, imports are being made, and there seems to be no fear of their decrease in popularity, further development of chinchilla breeding may be looked for. The mink numbers multiply rapidly and their skins are worth from two to six dollars apiece. Four litters a year averaging seven to eight each are the usual thing.

Says the minister's report: "Since it does not require much capital to start in a small way, and as women are quite as successful as men in raising them, it is reasonable to suppose that the breeding of chinchilla rabbits will become a factor of some moment in the fur industry."

To Protect Teachers

Armed by the educational stakes upon teachers in rural schools, the Government of Manitoba has under consideration amendment of the Public Schools Act as a means of affording greater protection to women teachers. Hon. Charles Cannon, minister of education, has announced

Wintered Largest Herd In Canada

Brandon Man Has Over 600 Pure-Bred Cattle On His Farms

Considering what is considered the finest herd on the North American continent, 600 pure-bred Aberdeen Angus cattle have been wintered in the Brandon district by J. D. McGregor. It is the largest herd ever wintered by this well-known breeder, and consists of the number of cattle kept through the winter in that district by a single owner.

The main herd is located at the Glencairn farm situated just south of the city limits, but the cattle are spread over ten different farm units. On each of these farms a separate herd of breeding cows is maintained, varying from 40 up to 250 head kept on the Glencairn farm. Wintering conditions have been ideal this year, and for this reason more than 100 cattle have been put in stock, easily fitting the cattle.

Many of the cattle are headed for the various exhibition circuits this coming year, and many more bonuses will be added to the Glencairn farm, through their showings. These are few owners today who have earned the reputation across America that J. D. McGregor carries, and his brilliant wins at the Chicago International, Toronto Royal, Brandon and other leading fairs testify to the high quality of breeding operations carried on such a large scale.

Start Dog Farm

Reported That Chicago Contractor Will Engage in New Undertaking in Northern Manitoba

In view of the exceptional keen public interest now more than ever manifested in dog derby events as an ever increasing popular sporting feature, it is proposed by H. S. Sutton, contractor of the Canadian Sheep Farmers' Association recently, H. S. Arkell, Dominion livestock commissioner, stated that the pure-bred sheep raised in Canada would stand comparison with sheep bred in any other country in the world. He commented upon the fact that it was now not thought necessary to import pure-bred stock from other countries for the improvement of the breed.

New Danish Air Service — A new Danish air service connects Denmark and France will start on May 1. The service, which is via Boulogne, will leave Copenhagen at 9 a.m. and arrive in Paris at Boulogne airdrome at 5 p.m.

"Clan Donald" Colonists

One Hundred Cottages and One Hundred Farms to be Eected in Canada by Scottish Colonists

One hundred cottages and one hundred barns will be erected for the Canadian Pacific Railway at Vermilion, Alberta. These homes will house the "Clan Donald" colonists, who are being brought to Alberta by the company's department of colonization and development, in conjunction with the British Government and the Scottish Immigrant Aid Society. The unique feature of these new buildings is that the lumber is grooved and one piece interlocks with another, so that no special skill is required to erect the houses.

Our Export Trade

Canada Occupies Second Place in World in Value of Exports Per Capita

Canadians at the present time are exporting their products to a hundred and forty countries and shipments to a hundred and twenty countries are substantial. Canada now occupies second place among the countries of the world in the value of exports per capita, and against seventh place in 1913. The Dominion was advanced from tenth to ninth place in the total value of export trade since 1913 and at the close of last year held second place in percentage of increase in export trade.

Wants To Live Up World

Believing "this planet needs some life," Leo Novitsky, a stenographer who recently won \$100 in a contest, has decided to spend some time at the Jewish Community Centre for the purpose of learning suits and Charleston dance music.

Some men escape the traps of others only to be caught in their own.

Dry newspapers make good polishers for windows, mirrors and ranges

Canada's Rubber Trade

Largest Rubber Transmission Belts in the World Are Made in Canada

The largest rubber transmission belts in the world, both conveyor and transmission, are made in Canada, stated A. B. Hamay, manager and secretary of the Rubber Association of Canada, in reviewing the activities of this industry for the past year. The value of Canadian heating exported was \$615,000. One million more automobile tires were made last year; half a million more were exported than during manufacture of tires amounted to over three million. In addition there are a quarter million pairs of Canadian tennis shoes were exported in 1925 with a value of \$4,125,210.

Wheat Exports

Show Large Increase in Both Quantity and Value For 1925 Over Previous Year

Total wheat exported from Canada during the six months ended March 31, 1925, was 178,154,116 bushels, valued at \$253,712,960. During the corresponding period a year ago, total exports of Canadian wheat were 96,472,063 bushels, valued at \$143,921,190. Shipments of wheat to the United Kingdom in the period under review totalled 156,671,227 bushels, valued at \$191,130,231, as compared with 75,367,306 bushels, worth \$112,752,629, in the same period of the preceding year.

Pure-Bred Stock

Not Now Necessary to Import Pure-Bred Sheep to Improve Stock

Speaking at the annual meeting of the Canadian Sheep Breeders' Association recently, H. S. Arkell, Dominion livestock commissioner, stated that the pure-bred sheep raised in Canada would stand comparison with sheep bred in any other country in the world. He commented upon the fact that it was now not thought necessary to import pure-bred stock from other countries for the improvement of the breed.

New Danish Air Service — A new Danish air service connects Denmark and France will start on May 1. The service, which is via Boulogne, will leave Copenhagen at 9 a.m. and arrive in Paris at Boulogne airdrome at 5 p.m.

SPECIAL FEATURES ON C.N.R. BROADCASTS

Western Canadian broadcasting stations in the Canadian National Railways' continental radio chain include programmes to be given during March which are worthy of special mention. It is the aim of the corporation to set a high standard for radio broadcasting by all its stations and with this end in view arrangements were made with some of the best musicians in the Dominion to broadcast from C.N.R. stations in the west during the month of March.

Investigate Quality Of Wheat

Wheat Milling and Baking Laboratory To Be Established at Alberta University

An announcement is made that the establishment of a wheat milling and baking laboratory at the Alberta University, has been completed. The resources of the university laboratory will be devoted wholly to a research programme approved at a recent conference of chemists and agronomists from the three prairie universities, called by the National Research Council. The most important item of the programme under way at present is the investigation of the quality of wheat produced in different districts and of practical methods for its improvement.

To Erect New Canneries

Canning Industry in Northern British Columbia Is in Flourishing Condition

Indications are that there will be an idle capacity in the northern district of British Columbia in 1926, and that a number of new canneries will be erected. In addition to those mentioned recently to be built at Queen Charlotte Island the erection of new canneries or re-opening or extension of existing ones, is planned at Captain's Cove, Prince Rupert, Mill Bay, Somerville and at the Kitimat cannery on the Nass River.

Build Large Saw Mill

A Million Dollar Plant to be Eected at Vancouver

Construction of a new mill at Vancouver at a cost of more than \$1,000,000, to have a capacity of 250,000 feet of lumber and 200,000 shingles, will be commenced at once, G. G. Johnson, general manager of the Capilano Timber Company, announced. A railway connecting the company's timber lands in the Capilano Valley, with the new mill, and a large wharf already are under construction.

Has Confidence in World Court Confidence in the fairness of the decisions of the world court and in the belief that the English-speaking world will exert the most powerful influence in regard to the reign of law as against the reign of force was expressed in an address by the British ambassador, Sir Ernest Howard, before the English-speaking Union of Battimore, Md.

United States Navy Plans

For Great Aerial Dreadnaughts Bristling With Heavy Guns

Will Raise Muskats

On Extensive Scale

Over 8,000 Acres at Swan Lake, B.C. Acquired For This Purpose

The largest muskat farm in the world, forty miles northwest of Quesnel, B.C., according to J. E. McFarland, representative of the Muskats, Inc., Limited, of Vancouver.

late last year the company acquired 8,155 acres of low-lying ground surrounding Swan Lake, also including the adjoining meadows and streams already dotted with numerous muskat and beaver houses, and which have given a fair living to a number of trappers for years.

Mr. McFarland, who has had years of experience with animal life north of the Peace River, is going in to the property early, and will make arrangements for the erection of new cannery buildings, and will then lay up the right-of-way for the twenty-eight miles of wire-tent fencing, which will be proceeded with as soon as weather conditions permit.

Canada's Egg Output

Total Value of Production For 1925 Placed at \$57,950,340

Canada's egg output during 1925 amounted to \$24,778,867 dozen, valued at \$57,950,340, being the highest both in regard to quantity and value recorded since 1920. Production by the bureau of statistics, producer, total value by producer, were as follows:

Alberta, 10,287,267 dozen, \$68,183; Nova Scotia, 5,867,227 dozen, \$50,792; New Brunswick, 4,138,768 dozen, \$39,792; Ontario, 89,069,287 dozen, \$26,702; Quebec, 32,041,825 dozen, \$2,856; Manitoba, 16,429,482 dozen, \$2,856; Saskatchewan, 33,692,261 dozen, \$7,075,376; Alberta, 26,754,959 dozen, \$5,618,511; British Columbia, 14,476,550 dozen, \$10,625,431; Indian Reserve, 224,404 dozen, \$68,125.

The trouble with a great many men is that they are never satisfied with what they are.

United States navy plans for great dreadnaughts of the air, bristling with guns to ward off aeroplane attacks, underlie the action of the house naval committee, providing for construction of two 6,000,000 cubic feet rigid airships and \$106,000,000 naval expansion programme. It recently reported to the house.

A glimpse of monster, which have been designed, given the committee by Rear-Admiral William Moffett, navy air chief, above seven of the new 50-caliber machine guns, 18 thirty-caliber, and one of the post-war one-pounder automatics, together with 9,700 rounds of ammunition for this weapon, and a part of the regular military load of 100,000 shells.

"The guns are so slanted that an enemy aircraft cannot approach from any direction or angle without permitting a concentration of fire," Admiral Moffett says.

Instead of armour, the air dreadnaughts will be built of thin, non-inflammable material, gas for protection against hostile aeroplanes.

Plans for a 6,000,000 cubic footer aeronautic ship, the value of which has been calculated to show the value of such a ship as an aerial transport. She would have a capacity of 750 men with their individual fighting equipment, as explained, and could take that force 500 miles at a speed of 85 miles an hour and still retain a 50 per cent fuel reserve.

"In this air vessel," the admiral continued, "infested with 90 per cent gas, 500 men each with 100 pounds of equipment, could be carried from San Francisco to Hawaii in 24 hours, with a 24-hour reserve of fuel.

"Forty rights of this capacity could move a division over this distance."

Settlers Coming From Britain

New Agreement Gives a Tremendous Stimulation to British Migration

As a result of the new immigration agreement between Canada and the United Kingdom, there has been a marked awakening of interest in this country, the other end of the world.

Cable addressed to the Canadian department of immigration, it is reported, are received in London from prospective settlers. Owing to the fact that the agreement applies only to farmers, farm laborers and domestics, a considerable number of the applications have to be rejected, but, nevertheless, it is certain that there will be a tremendous improvement in the volume of immigration this year.

The Ottawa department has had an inquiry made into statements made in the British House of Commons by Hon. C. L. Ameroy, secretary for the dominions, in which he quoted figures showing a very large percentage of rejections by the Canadian authorities.

The information received indicates that Mr. Ameroy's figures were not right.

The actual number of applications and rejections of families applying for admission into Canada as at January 31, 1926, were: Applications, 1,476; rejections, 264.

Final figures of the single men and women who have been rejected were not yet to hand.

Makes Good Windbreaks

Sunflowers Serve Good Purpose While Trees Are Growing

One of the benefits derived from the planting of sunflowers on the prairies is the protection against drifting winds in summer. The growth of sunflowers or willow enables the farmer to produce all the ordinary vegetables and small fruits. While one is waiting for trees to grow a good shelter can be obtained by planting Russian sunflowers. Three rows of these with plants about six inches apart will check the winds of late summer when the effects of drought are most likely to be felt.

The sunflowers need to be planted each year, but will serve a good purpose for a number of years. The windbreak is coming on. Either as fodder or for the seeds they furnish take in growing them.

Wheat To Be Shipped West

Fifty million bushels of the 1925 prairie crop will move to Vancouver for shipment during the present crop season, in the opinion of J. A. McCall, of the Vancouver harbour board. The total to date approximates 30,000,000 bushels.

Wheat Sales Muskats

The leading of Musket Lakes in Northern Alberta for the purpose of raising muskats for the fur trade, is a new industry that is under way.

WORLD HAPPENINGS
BRIEFLY TOLD

The Belgian Senate has ratified the debt funding agreement with the United States.

Cardinal Sali, cousin of Cardinal Gaspari, papal secretary of state, is dead.

The Spanish Government has tacitly agreed to support Poland in her claim for a permanent seat on the League of Nations Council.

Lithuania has asked the intervention of the League of Nations against Poland in connection with recent frontier incidents.

King Albert of Belgium, will preside over the opening session of the International Rotary Clubs at Ostend in June. Seven thousand Rotarians are expected to attend.

King Faisal has accepted an invitation from King George to visit London. He hopes to make the trip early in June after the opening of the English Parliament.

Preachers have been barred from Madrid bullfights. The Society of the Preachers of the Faith in Madrid has retained this ruling from the mayor who is a lover of horses.

Commander Franco, who brought fame and glory to his country by his epochal flight from Spain to Argentina, returned to Spain with his flying companions, aboard a warship.

A proposal to regulate Belgium's foreign debts contracted before the armistice, and to pay post-armistice debts on the rate of the Dawes plan receipts from Germany, was introduced in parliament by Senator Charles Magnette.

The dirigible Norges, with which Iraad Amundsen plans to journey to the North Pole, has carried out a successful eight-hour trial flight over Russia. The blimp, carrying thirty persons, circled over Russia several times.

Dr. Henry Spallinger, who claims to have discovered a method for curing tuberculosis in man and geese, is recuperating on the Riviera from an illness believed to have been due to breathing tubercle bacilli in his German laboratory, says a dispatch.

The four Australian wheat pools have invited the Canadian wheat pools to send a delegation to Australia in August. J. M. McDonald, of Adelaide, South Australia, says that following the conference at St. Paul, Minn., he decided that the Canadian and Australian wheat pools could work together.

Repudiates Fascist Government

Pope Denies Mussolini's Right to Enact Ecclesiastical Reform Laws

Pope Pius has repudiated the Fascist Government's right to enact ecclesiastical reform legislation. During recent months there have been persistent rumors that an accord between Mussolini and the Vatican had been made, but the Pope's declaration, contained in a letter to Cardinal Gaspari, indicates that reports of concurrence on the part of the church were without foundation. His holiness addressed Gaspari regarding ecclesiastical legislation, which soon is to be advocated by the government. The Pope remarks that several religious experts have been invited by the government to participate in drafting the laws.

He states that clerical experts have been invited may cause the belief that it is done in agreement with the Holy See," wrote the Pope, "but no agreement exists and these experts have received no mandate from us."

"Regarding legislation which belongs to the sacred power of God," wrote the Pope, "we declare that on such subjects we cannot recognize in others any rights to legislate unless through convenient negotiations and legitimate agreements with us."

"No such agreement can be well-arranged so long as the intentions conditions imposed upon the Holy See and Roman pontiff exist."

Unto the End

"By the way," said the lawyer who was drawing up the will, "I notice that you name six bankers to be your pallbearers. Wouldn't you rather choose some friends with whom you are on better terms?"

"No, that's all right," was the quick reply. "Those fellows have carried me so long they might as well finish the job!"—Boston Transcript.

Another Game Reserve

tion. J. E. Pierpont, minister of colonization, mines and fisheries, has brought in a measure to provide that the island of Anticosti in the Gulf of St. Lawrence, shall on proclamation become a protected reserve for the acclimatizing, breeding and conserving of all kinds of fish and game.

W. N. U. 1619

Was Nephew Of Livingston

Relative of Famous Explorer Dies in Ninety First Year

Another link relating the great American explorer, Dr. David Livingston, to the present century was severed with the death at his residence, 65 Queen's Drive, Weston, Ont., of Neil Mackenzie Livingston, his eldest nephew.

The late Mr. Livingston was in his 81st year and was, therefore, in early manhood when the exploits of his uncle were on everybody's lips. In 1857, when Stanley was leading his relief expedition into the heart of Africa, deceased was thirty-six years of age, and along with the rest of the world was awaiting eagerly the dispatches announcing progress.

Two years later news came of the explorer's death in Africa, although his journals were saved and given to the world.

Has To Abandon Plan

Show Motors Not Feasible For Hauling Supplies For Polar Exploration

The attorney of Alexander M. Smith, to haul supplies for the Wilkins' transpolar expedition to the North Pole, now never has been called off by Captain George H. Wilkins.

Smith started from Neah, Alaska, with 15,000 pounds of gasoline and supplies on ten sledges. The two snow motors used to haul the sledges have broken down repeatedly and have been able to negotiate only 70 miles in two weeks of the 700 miles to Polar Barrow, in time to be of assistance to the flights, Wilkins said.

The explorer believes the local aviation field can be enlarged sufficiently to permit the large monoplanes for the first time are beginning a little to recover from the terrible poverty they have endured since the war. Everybody works hard, but there is a great shortage of capital, and immense Testimony efforts are to be made to obtain it. Not from private investors, at least from American and English bankers. One authority assures me that the British are not to be blamed, and that there is sufficient to warrant the English. The hatred of the French is intense. During the occupation of the Ruhr, the French displayed the same taunting which made them such a failure as a colonizing power.—Liverpool Weekly Post.

Colony Of Hungarian Nobility

Several Titled Hungarian Families Take Up Land in Manitoba

As a result of the efforts of the Canadian Colonization Association, Manitoba is developing a colony of Hungarian nobility. In 1925, after the incorporation of their colony in Transylvania, the Hungarian Royal Zoological, called the Imperial Hungarian Institute, and Count Géza Pessely, came out to Western Canada under the auspices of the Canadian Pacific Railway and selected a section of land near Headingley, Manitoba, which they have developed into a first rate dairy farm.

Three additional families of the Hungarian nobility joined them shortly afterwards and now Count Bela Szapary, of Budapest, has secured an adjoining farm.

A New Oil Industry

Ratitom's Oil Used in Medicine

Brings Millions to Oil Queen

Ratitom's oil at \$100 a gallon has brought a new industry to Texas. Chico long has been known as an oil centre, but this is an entirely new phase of the business. The oil is used in medicine.

This is the time for harvesting the rattlesnake crop, because the rattlers are dormant. A keen eye and a quantity of dynamite are required. Search is made among the hills for a den of rattlers. The den is dynamited, and the snakes are driven out. They are then rendered into oil.

One snake produces only a small quantity, but sometimes several hundred snakes are found in one den.

Would Be Unusual Case

Majorist Alleges Inscription on Boy's Tombstone Is Libelous

Can a tombstone inscription be libelous?

Blanche Bellaver, of Litchfield, Ill., may put the question up to a jury if she decides to bring suit against the relatives of a six-year-old boy who was killed when he ran in front of her automobile.

The inscription on the boy's tombstone reads: "Lester, beloved, died Blanche Bellaver, Oct. 1, 1929."

Miss Bellaver is threatening to bring suit on the ground that the epithet is libelous. A corner's jury exonerated her of all blame for the little boy's death.

Is Life Ever Justified? Yes, when it redeems a state of things worse than itself.

A doctor often has to decide his patients in order to save their lives. Once met a man chasing a woman with the intent to kill her, and he asked me the way she had gone, I should feel justified in misdirecting him.

Other instances will suggest themselves, such a Herod, the murderer of John the Baptist, who would not be but kill.

Yet these extraordinary cases only show the paramount necessity of telling the truth.—Rev. D. S. Parkes Cadman.

New Lieut.-Governor of B. C.

His Honor Robert Randolph Bruce, whose appointment as Lieutenant Governor of British Columbia was announced while he was in England. He arrived in Canada on board the Canadian Pacific steamer Montrose, and proceeded at once to his home at Windermere, B.C.

Germany's Industrial Situation

People Recovering From Poverty Endured Since the War

I have been hearing a good deal about the inside of Germany, and learn that Sir Philip Dawson, M.P., is publishing a work on its industrial situation. No Englishman can better estimate it. At last the middle class, that is, the professional and medical men and their families, for the first time are beginning a little to recover from the terrible poverty they have endured since the war. Everybody works hard, but there is a great shortage of capital, and immense Testimony efforts are to be made to obtain it. Not from private investors, at least from American and English bankers. One authority assures me that the British are not to be blamed, and that there is sufficient to warrant the English. The hatred of the French is intense. During the occupation of the Ruhr, the French displayed the same taunting which made them such a failure as a colonizing power.—Liverpool Weekly Post.

Two Way Radiophone Conversations

Established in Atlanta with England

reached a high point of perfection recently, officials of the American Telephone and Telegraph Company of New York reported. Amateurs listening in heard the conversation on 12,000 metre wave lengths both ways.

A new record for amateur radio

communication is believed to have been established by a Vancouver amateur, Earl Chang, when Mr. Chang was in communication with a ship lying in Discovery Inlet, Antarctic Ocean, a distance of more than 10,000 miles from Vancouver, for more than fifty minutes.

As pastor of the world's only aerial church, Mr. Chang has neither length, breadth or thickness, and is without size or location or latitude of any kind, Rev. Paul Rader, of Chicago, numbers his congregation by the tens of thousands.

Mr. Chang, who is a member of the

Radio Club chapter and every Sunday

he conducts day-long services over station WHT, which is under contract for 10 years for this purpose.

Woman Leaves Three Millions For Animals

English Lady Wills Fortune For Bettering Their Condition

Her love for animals led an English lady, Mrs. S. M. Grove-Kent, of London, to leave practically her whole fortune of over \$4,000,000 for the betterment of the animal kingdom.

Her bequests included \$25,000 to the People's Dispensary for Sick Animals.

\$10,000 to the R.S.P.C.A., on condition that the chairman and members of committees shall be anti-vivisectionists and opposed to sports involving the death of deer, fox, hare, rabbit or any bird, fish or any other animal.

She used every means to combat such sports.

\$25,000 to the Anti-Vivisection Hospital, Bayswater.

After various other bequests, the residue of her property is left on trust for founding a society for opposing and protecting animals.

She abhorred hunting and kindred sports, and was strong in her denunciation of those who spend hours in harrying a fox or a stag to death. The wanton destruction of game as game was also among her pet abhorrences.

The legacy of \$50,000 to the R.S.P.C.A., the government were compelled to decline on account of conditions attached to the bequest.

Those who knew the deceased, described her as "A charming little old lady, with a mid-Victorian atmosphere about her. Her large fortune was inherited, and came from the woolen trade."

A Charming Mode For the Junior Miss

Adapted to the girl of six to fourteen years of age, this smart cashmere coat for general wear reveals such neatness as a double-breasted sleeve cut at the shoulder, and an interesting collar.

There is a slight fullness at the shoulder, in front, and emblazoned patches on the shoulders and usefulness.

The circular skirt is in two pieces, and attached to the bodice at the low waist line.

The collar is wide and worn back with the long one cut out.

It is lined with the long one cut out, or tied lower down.

BAREE, SON OF KAZAN

by James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.
"BAREE, SON OF KAZAN," a Vitagraph Picture. With Wolf, the War Dog, is an Adaptation of This Story

CHAPTER XXX.—Continued.

Something greater than mere curiosity began to take possession of Barree. A whimsical humor became a fixed and deeper thought, an unreasoning狂想曲 that was accompanied by a certain thrill of subdued excitement. By the time they reached the old beaver pond the men of strange adventure had a firm hold on him. From Beaver-trot's colony Barree led him to the creek along which Wakyon, the black bear, had passed, and thence straight to the Gray Loon.

It was early afternoon of a wonderful day. It was so still that the rippling waters of spring, singing in a thousand hills and streamlets, filled the forests with a drowsing music. In the water runs the crimson banebeek glow of the blood. In the open spaces the air was scented with the perfume of pine, flowers, and the trees and bushes made birds build their nests. After the long sleep of winter Nature was at work in all her glory. It was Unkeopekin, the Matting Moon, the Home Building Moon—and Barree was going home. Not to mate-hood—but to Pespese. He knew that she was there now, perhaps at the very edge of the chasm where he had seen her last. They would be playing together again soon, as they had the day before, and the day before, and the day before that, and in his joy he hopped up into Kazan's face, and urged him to greater speed. Then came the clearing, and one more large stone like a rock. Barree saw the charred remains of the burned cabin, and a moment later the two graves under the tall spruce. He began to understand as his eyes returned slowly to the walking, listless dog. A great pain rent his throat, and after a moment or two he said softly, and with an effort:

"Boy, I guess you're home."

Barree did not hear. With his head up and his nose tilted to the blue sky he was sniffing the air. What was it that came to him with the perfumes of the forests and the green meadow? Why was it that he trembled now as he stood there? What was there in the air? Barree asked himself, and his questioning eyes tried to answer the question. Nothing. There was death here—death and desolation; that was all. And then, all at once there came from Barree a strange cry—almost a human cry—and he was gone like the wind.

Barree had thrown off his pack. He dropped his rifle beside it, and, followed Barree. He ran swiftly, straight across the open, into the

dwarf balsams and into a grass-grown path that had once been worn by the travel of feet. He ran until he was panting for breath, and then stopped and listened. He could hear nothing of Barree. But that old worn trail led under the forest trees, and he followed it.

Close to the deep, dark pool in which the Willow had disposed of itself, Barree stood, stopped.

He could hear the rippling of water, and his eyes shone with a gleaming fire as he gazed for Nespese. He expected to see her there, her skin white, her shimmering in some dark shadow of overhanging spruce, or gleaming suddenly white as snow in one of the warm patches of sunlight. His eyes sought out their old hiding places, the great split rock on the other side, the shelving bank under which they used to dive like otter, the great log that had dropped down to the surface, and in the depths of which the Willow had sought her buried body while he searched the pool for her.

And at last the realization was home upon him that she was not there, that he had still farther to go.

was not altogether the tanning of wind and sun and snow, and a glow in his eyes that had not been there for five years, perhaps never before. His eyes were, perhaps, never before, like eyes were on Nespese.

"To-morrow or the next day I am going to Lao Bain," he said, a hard and bitter note back of the gentle worship in his voice. "I will not come back until I have—killed him."

The Willow looked straight into the fire. For a time there was a silence broken only by the crackling of the flames, and in that silence Carvel's fingers closed over the end of the silken strands of the Willow's hair. His thoughts flashed back. What a chance he had missed that day on Bush McTaggart's trap-line—if he had only known! His jaws set hard as he saw in the red-hot heart of the fire the mementoes of the day when the Factor from Lao Bain had killed Pierrot. She had told him the whole story. Her flight. Her plunge to the shore. Her thought was certain death in the trap-line, the chance. Her miraculously escape from pierrot—and how she had discovered, nearly dead, by Tuboo, the toothless old Cree whom Pierrot out of pity had allowed to hunt in part of his domain.

He felt within himself the tragedy and the horror of the one terrible hour in which the sun had gone out of the world for the Willow, and in the flames she could see faithful old Tuboo as he called on his last strength to carry her over the long miles that lay between the chum and his cabin; he caught sight of the old woman who followed that in cabin, shivering with hunger and of intense cold in which the Willow's life hung by a single thread. And at last, when the snows were deepest, Tuboo had died. Carvel's fingers clenched in the strands of the Willow's braids. A deep breath rose out of his chest, and he said, staring deep into the fire:

"To-morrow I will go to Lao Bain."

MOTHERS WHO HAVE USED BABY'S OWN TABLETS

Always Strongly Recommended to Other Mothers

Once a mother who had used Baby's Own Tablets for her little one, has used nothing else—actual experience teaches her that there is no other medicine equal to Baby's Own for the minor ailments from birth to baby or baby one suffers.

Having found the value of the Tablets in her own case, she has recommended them to other mothers, she should share her knowledge. That is why Mrs. Crewe, of White Marsh, Noel Road, N.S., writes the following: "I have a seventeen month old baby and have given him nothing but Baby's Own Tablets every day for a week or two. I know of no other medicine equal to them, and it is certainly a pleasure to recommend them to other mothers."

Baby's Own Tablets are well built and thorough laxative; help to regulate stomach and bowels; banish constipation and indigestion; break up colds and sore throats; and cure the sickly baby well and quickly.

Sold by medicine dealers or by mail at 25 cents a box from The Dr. W.H. Williams Medicine Co., Brooklyn, Ont. "Although I was late," said the new boarder, "I found the landlady had saved for me the tenderest part of the chicken." "What was that?" said the old boarder jealously. "Some of the gravy."

Registered visitors of the Abraham Lincoln Hospital in Springfield, Ill., during 1925 totalled 126,710 persons.

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would go to bed at night every morning and nothing could do my work for me as I have two children and we have a large family. I read the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail and my doctor told me to take it. He got me a bottle, and then we got more from the store. I am feeling the best I have ever been. I am able to go out and more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so good. I live in St. John's, Newfoundland, Richard'son, Barrington, Nova Scotia."

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the waist from which I suffered for five years after my boy was born. After taking the Vegetable Compound and then Lydia E. Pinkham's Sanitary Wash I am feeling better than I have for the past seven years, and advise my friends to buy it." Mr. F. Johnson, 49 Moon Street, St. Thomas, Ont. G

says:

I know what you mean when you say I was made for somebody to love—you'd like to be that somebody!

Watch this paper for further news of Joanna's love story.

What Would You Do With a Million Dollars?

Cuticura Talcum

is a delicately scented, astringent, deodorizing powder ideal for both children and adults. It is cooling and refreshing and imparts a pleasant fragrance leaving the skin smooth and soft.

Sample Pack Free by Mail. Address Canadian Importers, 100 St. George Street, Toronto, Ontario. Price, 25¢. Cuticura Shaving Stick 25¢.

Bears Acted As Judges

Proved Charge of Cruelty Against Keeper Was False

In a case recently heard before a tribunal at Berne, Switzerland, the principal witness was two bears.

Hans Gruenwald, keeper of a bear's pit known to tourists throughout the world, brought legal action for defamation against three former employees who had accused him of cruelty toward animals, which charge he strenuously denied, adding he was very fond of bears.

When the court opened, a man brought in two bears. As soon as the three accused appeared the animals began to growl angrily and went to retreat to a corner evidently fearing chastisement.

Then the professor replied: "It is not a simple case; it may prove a very serious one. It is not the time, and that the best way to take it, is to take the best advice. It is not what the doctor does not know, but what the patient thinks he knows himself. That is the danger in a common cold. A man with a cold is a sick man and may become sicker if he neglects it."

Common Cold Is Dangerous

People in Error Who Consider it Just Simple Malady

Captain Raoul Amundsen discoverer of the South Pole and navigator of the northbound passage, has been ordered to bed "a very sick man" because he refused to take a cold seriously.

How such a sturdy man could have contracted such a malady is in itself a puzzle to lay mind. We are inclined to picture him as having acclimated himself to the colds of the polar regions, but it is the general cold of the common cold that people accustomed to living out in the great open and frozen spaces are liable to it the moment they get back to civilization and steam heat.

The tramp who has spent most of his nights sleeping under a bare-wire fence is likely to catch a cold if some one gives him the price and he spends it on a good meal.

When well and strong and feeling fine we seldom think about doctors and if we do it is generally with the comforting thought that medical science has conquered almost everything but cancer.

But let us catch a common cold and shake it off in a day, and we set to thinking of the thousands of years in which the millions of medical men have failed to find a speedy cure so simple a malady.

Then the professor replied: "It is not a simple case; it may prove a very serious one. It is not the time, and that the best way to take it, is to take the best advice. It is not what the doctor does not know, but what the patient thinks he knows himself. That is the danger in a common cold. A man with a cold is a sick man and may become sicker if he neglects it."

Admiral Togo Exepted

Aged Japanese May Carry Cane When Visiting Imperial Court

Admiral Count Togo, commander of the Japanese fleet which destroyed the Russian squadrons in the Battle of the Sea of Japan in May, 1905, now enfeebled by his 80 years, has been granted special permission to carry a cane when visiting the Imperial Court.

The carrying of sticks of any sort is the sole prerogative of the Emperor and is forbidden by Imperial Decree, except in the case of the sick. Togo was made by formal ruling of the minister of the Imperial Household.

Minard's Liniment for sore throat

Lethbridge Northern Irrigation District

Crop Survey For 1925 Shows a Remarkable Improvement

Preliminary results gathered in the crop survey of the Lethbridge Irrigation District for 1925 show remarkable improvement, as compared with 1924, the first year of the operation of the project with the water on the land.

The survey shows that the per acre value of soil products on irrigated lands was \$27.43, as compared with \$16.19 in the year 1924. There were under crop in the district 1,958 acres of irrigated land, as against 21,000 in 1924. The gross return from the 21,000 acres was \$334,679, while the gross returns in 1925 were \$1,013,000.

Internally and Externally It Is Good

The crowning "property" of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For example, it cures, whooping cough, pains in the chest, colic and many kindred ailments. It has qualities that are unsurpassed. A bottle of it costs little and is not to be lost in always having it at hand.

A mushroom measuring more than a yard in circumference, and still growing, is said to be in the possession of a woman living at Maronne, near Roten, France.

It is good to live only a moment at a time; it is not for you and me to lay plans; we're nothing to do but to obey and trust.—George Elliot.

Trans-Canada Highway

Completion of the Manitoba section of the trans-Canada highway will be undertaken this year, if reports of engineers surveying the proposed route are accurate. Thirty-five miles of the proposed route remain unfinished. The Ontario Government is pushing forward its end of the road from Kenora.

Tea as it should be

Colds Are Not Necessary Evils

Observance of One Fundamental Rule of Health Protects Against Them

Whether one catches cold easily is largely a question of heredity and condition. If the general vitality is low, resistance to disease is weak and at such a time it is easy to contract and difficult to check.

Contagion is frequently the cause of disease of state of health, with its attendant listlessness, debility, headache and a general lack of vitality. Poisons from the waste matter that remains behind in the body are absorbed and eliminated are picked up by the blood and carried to every part of the body. This weakens your resistance to disease.

Those who are inclined to self-poisoning in this way have found that Nystol, the internal antiseptic, makes bowel elimination sure and easy.

Nystol softens the waste matter and permits thorough and regular elimination of the body and its natural muscles. Nystol can be taken for any length of time with no ill effects.

The Alberta Legislature

Many New Bills—Future of Northern Railways Subject of Hot Debate.

(By John Mackenzie)

With the address in reply to the Throne speech out of the way, the Alberta Legislature got down to business this week.

New Legislation

Monday was devoted to the clearing up of the order paper, and several motions that had been standing for some time were disposed of.

Thirty-seven bills have received first or second reading, and several have reached the committee stage.

Many of these are comparatively unimportant, but others are of the first magnitude, especially the bill for the transfer to the Province of the public lands, with which is incorporated the agreement with the Dominion Government for the turning over to the Province of its natural resources.

A new Municipal District Act is on its way through. The most important changes are in respect to closer supervision of secretary treasurers by the auditors. This is with a view of reducing defalcations, which have been unfortunately prevalent of recent years.

An amendment to the Highway Act, if passed, make it compulsory for motorists to dim their lights when within 200 feet of another vehicle.

The amendments to the Hall Insurance Act will have the effect of dividing the Province into zones, with varying rates according to the losses in the past five years.

A resolution calling for the construction of a forty-one mile extension to the A. & G. W. railway was withdrawn, after the Minister of Railways had expressed himself de-

cidedly against it on the ground that it was not warranted by the number of settlers in the district, and that part of the district was already served by the C. N. R. The previous Government had in 1915 built the grade and laid ten miles of track on the extension asked for, not for the benefit of the Province, but to use up the balance of the guarantees on the A. & G. W., amounting to \$20,000 per mile, or \$80,000. The work done would be of very little value, as it would cost over \$700,000 now to complete the line.

A request for the linking up of Peace River with the Provincial telephone system was favorably considered, and the line will probably be completed when the new motor highway is built.

A resolution of sympathy to Hon. C. R. Mitchell on the death of his mother was passed by a standing vote.

Want "Blue Sky" Legislation

The Legislature unanimously passed a resolution calling upon the Dominion Government to put companies applying for charters in the Province under the control of the Provincial Utilities Board. Similar legislation had been asked for by Manitoba and Saskatchewan, and was very necessary in view of the present oil boom.

Government employees, it was stated, numbered 2,120 on Feb. 1, 1926, as against 2,561 on Aug. 13, 1921. School inspectors now numbered 26, as against 40 in 1921.

(Continued on Page 4)

Made The Son Anxious
A Bremerton father, reproving his boy, exclaimed: "My son, I'm afraid I will never see you in heaven!" To which came the reply, "What's been doing now pop?"

Local Artists Perform in Pro. Style

(Continued from page one)
but it is expected that the Elk's funds will be considerably augmented.

One of the features of the play last night was the splendid orchestra composed of local musicians. A delightful programme was given before and during the performance, which added much to the enjoyment of the audience.

In Hospital for 8 Months;

Happy to be Home Again.

Miss Annie Kane, of West Coleman, undoubtedly holds the long distance record as an inmate of the local hospital. Sometime last July this young lady entered the hospital to undergo an operation for appendicitis. Complications ensued and eight weary months dragged by before she was sufficiently recovered to return to her home, which happy event occurred last week.

THE MAIL BAG

Editor, The Journal,

Dear Sir: Is it the voice of Spring or our immediate industrial prospects, or have we really awakened from our peaceful slumber?

Anyhow the Coleman Board of Trade is now an accomplished fact. The die is cast! All that now remains is to do is for you, Mr. Citizen, to rally to the cause with brain and brawn for the possibilities of our fair town are unlimited.

Situated as we are in the midst of these majestic mountains and mighty forests, is it not time we stopped our poverty thinking? Is it not feasible that with such vast natural resources at hand we can increase our industrial activities? Fellow townsmen, it is entirely up to you!

On hand at the Council Chambers on Tuesday, March 16th, at 8 p.m. sharp. We want you. The Coleman Board of Trade is an organization worthy of your support. Its aims are the elevation of our social and business activities. Constructive thought on the part of our citizens will create the motivation that will lead to a more happy and prosperous community.

Yours truly,
H. SNOWDON

Personal and Local.

A little more leadership and cohesion in our local fire brigade would not be out of place. It should not be necessary for the fire chief to have to lug hose, couple nozzles, etc. Directing fire fighting operations is a big enough job for one man. Intelligent supervision at fire would result in saving much unnecessary damage by both fire and water.

That the Hon. Alex. Ross, a few years ago, was a hard working man, a real "proletariat" and right on the eve of an election he has gone and purchased a piece of Edmonton mud, reported to be worth \$18,000 isn't it awful? Next we will be hearing that he is wearing "jazz" garters.—Strathmore Standard.

The big dance in the evening of St. Patrick's Day, at the K. of P. hall, promises to be the event of the season. Four prizes are offered for dresses improvised to represent Canadian Made Goods and Irish Colleen and Man. The music is under the direction of Mr. Bond, admission 50¢.

The Great Northern Railway have announced their intention of building a million dollar hotel at Waterton Lakes Park. Construction is to commence this summer.

Mr. J. A. Nowell, President of the McGillivray Creek Coal & Coke Company, is a visitor to Coleman this week.

Fresh Eggs For Sale!

First \$8.00, Seconds \$7.50 per crate of 30 dozen f.o.b. Cowley.

J. R. IRWIN, Cowley, Alta.

Messrs. Broley & Kordus have been awarded the contract for the building of the road between West Coleman and Crow's Nest Lake. The contract price being around \$40,000.

The following gentlemen from Coleman attended the meeting at Blairmore last Friday of the Rocky Mountain Branch of the Canadian Institute of Mining and Metallurgy, Messrs. D. Davidson, J. A. McLeod, W. E. G. Hall, H. McLeod, Wm. Jewitt, H. Clarke, J. C. Cox and H. Jones.

The Coleman Garage unloaded their first carload of Ford cars on Wednesday of this week. These are all new models bought to sell at the reduced price. Call and see them in the Coleman Garage show room.

The latest arrangements at the Canadian Exhibition on St. Patrick's Day, Wed., March 17th, include the following: 3 to 6 p.m. a Brain Pie, 10¢ a slice. White Elephants, 25¢ each. Afternoon tea, 25¢. A stall of potted plants and shamrock under Mrs. Graham, Sr. Orders taken for Easter flowers, etc. Exhibition of Canadian specialties by the Carnation Milk Co., Messrs. Swift Canadian Co., Nabob Tea and Coffee Co., Coleman Lamp Co., Martin Senior Paints, etc.

Say It With Flowers
When you require flowers artistically arranged for any occasion, at moderate prices, and of unequalled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Letbridge.

"A deep orange monkey fur is now popular," says a fashionable paper. Charlie Probo remarks that if he ever saw a deep orange monkey he would stick to soft drinks.

Summit Lodge, A. F. & A. M. are holding a social evening on Thursday, March 18th. All Masonic members of their families and Eastern Star members are cordially invited to attend.

A. McGillivray, leader of the Conservative party, wants a chance to balance the budget, and yet during the past four years the firm of which he was a member, pulled down \$32,000 for part time services. Lots of fellows would willingly give the government a service for that amount, and not bother about the darned old budget.—Strathmore Standard.

Old Records Shattered at Quebec Dog Derby

1—Francois Dupuis, driving for A. McLeod & Co., who won the Derby. 2—Spectators watching start and finish of the dog Derby. 3—Shorty Russick with harness and lead, Murphy.

Struggling under the handicap of lean weight and drying snow and blizzards, when the hill and the dog from the driver, the crack teams of the continent fought to maintain or overcome leads in the Eastern International Dog Derby at the Quebec Winter Carnival under the auspices of the Frontenac Winter Sports Club. Among the numerous competitors were Emile St. Godard, driver at the 1925 Manitoba, last year; Shorty Russick, world's champion 200 mile non-stop driver; Earl Brydges, Quebec winner in 1925; Grayson, winner and mother; Francois Dupuis, the Quebec who won the Derby this year; Warden of Westport, N.B.; Channing of Bremen, and others.

The visitors at Quebec picked their favorites from Russick's ten horses. St. Godard's cross-breds led a scant ten seconds.

In winning the gold cup and one thousand dollars, Francois Dupuis established a world's record, second best record ever, 1:49.45 established last year by St. Godard, by seventeen minutes and thirty-five seconds. Last year's record was also beaten by Russick, second in this year's race, who covered the 128 a mile in 12 hours and forty minutes.

Out of the nineteen teams that started in the race, all but one finished, this being Warden of Westport, N.B., Quebec, who trailed the field on Thursday and Friday and found it impossible to catch up.

Thousands of people were on hand as the team drivers by Dupuis for A. McLeod & Company, of Quebec, finished the lap of the grueling race, closely followed by Russick. A large number of enthusiasts were also present in the evening at a dance at the Hotel Frontenac, when Hon. W. Gerard Power, president of the Quebec Harbour Commission, also acted as chairman and presented the prizes.

The visitors from Quebec were awarded a cup and a cash prize for being the youngest driver ever having taken part in a race of such a nature.

Legends of the St. Lawrence River in Quebec

Folk tales and legends still cling to the shores of the St. Lawrence, the largest river in the North American continent. Legends in which are mingled bits of Indian superstition, French customs and native beliefs. In the days of the early explorers, those brave men who dreamed dreams which led them on and over the bright waters, past dark islands, past hills, and through forests, and they often in Canada, these legends were reverenced. Now, however, while large Canadian Pacific steamships crowded the tourist trade along the St. Lawrence, the legends are no longer regarded except in quaint fairy tales, with somewhat of a religious flavour not to be forgotten, of course, but to be enjoyed as a remnant of the old days when saints and demons assumed mortal forms.

Katherine Hais, an artistic little girl, who is the Canadian Pacific Railway recently, ably depicts many of these stories. One of the most familiar of these French Canadian legends is that of Loup-Garou, evidently derived from the German

belief in supernatural intervention. Joachim Crete, a miller of Beaujeu, was a bad man, but he did not go to church and he would not try to convert his hired man merely because he was such a good partner at chess. On Christmas night they played, instead of a game of chess, the mill going, as if it were on binary night. Suddenly crack! and the mill went out, and the two men went in trembling darkness. After that the hired man tumbled down stairs, and the miller began to drink fast and furiously. Presently he stopped moaning, and turned to see a huge dog about to attack him. Then the miller knew it was Loup-Garou, and he got on his feet and praying for forgiveness. But he hurried away with a reaping hook, and wounded him. That was the saving of the hired man, who had been turned into the form of a wolf or dog because of evil deeds, a really bloody wound can restore you. Loup-Garou is one of many such legends.

PIERRE HENRI NOUVEL, WHO VISITED QUEBEC IN 1926

werewolf or the Irish banshee. Loup-Garou typifies the French Canadian's reverence for things spiritual and his

FOR SALE

The best 5-room plastered house in Coleman. Ideal location, cement sidewalks, good lawn, usual sheds and outhouses. If you are in the market for such a building, either for your own use or investment, this is a genuine buy. Come and see it and be convinced. Price reasonable.
